

# Wouldn't it be cool to be cool in your house this summer?

It would be cool – and so affordable. Ripley Power and Light and TVA are offering cash rebates of up to \$1,000 when you buy a new heat pump through one of Ripley Power and Light's approved contractors.

It's part of TVA's eScore program – an in-home, energy-saving program that provides a simple path to make your home as energy efficient as possible.

Heat pumps provide an even, cool temperature in your home during the summer and an even warm temperature in cold weather.

New rebates, announced by TVA this past winter, will give homeowners \$1,000 when they switch from gas heating to an energy-efficient electric heat pump.

Homeowners who switch from gas heating to a dual-fuel heat pump or who replace an old electric heat pump with a new one will receive a \$500 rebate.

To get started, contact one of eScore's approved contractors ...

- Flatt Heating and Air Conditioning, Newbern, 731-627-2581
- Heglar Plumbing & Electric Co., Humboldt, 731-784-3642
- Quality Service Heating and Air, Ripley, 731-635-3452
- Windle Heating and Air Conditioning, Dyersburg, 731-285-7970

You can finance your purchase through Ripley Power and Light to make it even more affordable.
